Education Pupils' Personal Accident

We all know that accidents happen. Although relatively minor injuries do not usually have life-long consequences (even in the case of a broken limb, the risk of permanent disablement is relatively small) some accidents are far more serious with long-term implications.

Aside from coping with the physical disability itself, the cost of care and reduced earnings potential in later years are realities that may need to be faced. Personal Accident insurance offers parents a certain degree of financial security as well as peace of mind in such circumstances.

Another advantage of Personal Accident insurance is the guarantee of claim payments at pre-determined sums for a wide range of injuries and disabilities, regardless of fault. This form of cover is not dependent on proving liability, thereby avoiding the prospect of a protracted legal process to secure compensation.

About the Insurance

Your school has chosen a scheme operated by EIS which includes all pupils, owing to the value they place on the cover. The cost of this is met by the school from the fees that you pay.

The school operates the scheme on an annual basis with renewal each September.

Scope of Cover

The insurance provides benefits for Bodily Injury caused by an Accident that results in death or permanent disability as specified below. The insurance is designed to cover all pupils 24 hours a day, so they are protected during education, leisure time and holidays. Cover begins for each pupil from the first day of the first term, including the journey to school, and continues uninterrupted until the pupil leaves the school (provided the school renews the scheme at the beginning of each term).

The following summary does not contain the full terms and conditions of the contract and does not form part of your contract of insurance. These can be found in the Certificate, Schedule and any attaching Endorsements held by your school, which you can request to see at any time.

Definitions

"Accident" means a sudden, unexpected, unusual specific event, which occurs at an identifiable time and place during the Operative Time, but shall also include exposure resulting from a mishap to a conveyance in which the Insured Pupil is travelling.

It is agreed that, subject to all the terms, Definitions, Exclusions and Conditions of the Certificate, if the Insured Person disappears during the Period of Insurance and his body is not found within 90 days after his disappearance, and sufficient evidence is produced satisfactory to the Underwriters that leads them inevitably to the conclusion that he sustained Bodily Injury and that such injury caused his death, the Underwriters shall forthwith pay the death benefit under this Insurance provided that the person or persons to whom such sum is paid shall sign an undertaking to refund such sum to the Underwriters if he is subsequently found to be living.

'Bodily Injury' means identifiable physical injury sustained by the Insured Pupil and caused by an Accident during the period of insurance which solely and independently of any other cause, except illness directly resulting from or medical or surgical treatment rendered necessary by such injury, occasions the death or disablement of the Insured Pupil within 24 months from the date of the Accident. With the dental option, this includes injury to teeth or orthodontic structure or damaged caused intra orally whilst eating.

"Emergency Dental Treatment" means treatment rendered necessary for the relief of pain, inability to eat, arrest of haemorrhage, control of acute infection or a condition which could threaten the Insured Pupils health.

'Insured Pupil' means all pupils attending the school for whom the appropriate premium has been paid and declared to EIS.
